EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond Mah on February 27, 2005. The application has been amended as follows:

In claim 25, delete lines 1 – 14.

In claim 25, line 15, before "wherein the..." insert - - The sound generating device of claim 1, - -.

In claim 26, delete lines 1 – 14.

In claim 26, line 15, before the word "changing" insert - - The sound generating device of claim 1, - -.

In claim 26, line 15, replace the word "changing" with - - wherein - -.

In claim 26, line 16, after the word "data" enter the phrase - - is changed - -.

These claims, claims 25 and 26, should now read:

25. The sound generating device of claim 1, wherein the frequency of the sound waveform data is changed in a continuous manner.

26. The sound generating device claim 1, wherein an amplitude of the sound waveform data is changed in response to the output of the tilt detector.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Regarding independent claims 1 and 8, the prior art does not disclose the use of an a tilt detector for controlling sound waveform data and associating tilt with a backing music data (and then comparing the performance with a reference). Regarding independent claims 21 and 23, the prior art does not disclose the use of a insertable (and removable) storage medium for storing a program which also contains a tilt detector. Regarding claim 24, the prior art does not disclose the use of changing the frequency of a syllable of a lyric in accordance with detected tilt.
